

Vision Document: Azrea's Daily Companion Tracker

Overview

This document defines the vision, goals, and roadmap for the Daily Companion Tracker. It is a futuristic, material-inspired Windows desktop assistant tailored for investment research, productivity, and daily motivation.

Vision

Create a sleek daily companion that combines AI support, financial data, and reminders into a simple, elegant tool that professionals love to open every morning.

Core Features

- Company Research Hub: public info, leadership, products, news
- Stock Integration: quotes, watchlists, notifications
- AI Assistant: Q&A for research and productivity
- Daily Productivity: 8:00 AM quotes, reminders, morning briefing
- Reports & Export: short and deep-dive PDFs; optional Drive sync
- UI/UX: futuristic dark neon, material, accessible

Roadmap

- v1.0.0: Core foundation (GUI, quotes, stock lookup, installer)
- v1.1.0: AI chat, PDF exporting, watchlist alerts
- v1.2.0: Reminders, legal/news feeds
- v1.3.0: Drive sync, dossier builder, voice, auto-updates

Goals

- One-click installer; no Python required on the target PC
- Accurate, fast company research
- Accessible, motivating UI
- Evolve with real feedback from Dad
